We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

WASTE WATER TREATMENT REVENUE ACCOUNT
FINANCIAL STATEMENTS
December 31, 2019**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Borough of Myerstown, Waste Water Treatment Revenue Account (Fund) consists of funds of the Borough of Myerstown (Borough) used to account for the operations of the Borough's Wastewater Treatment Facility.

Basis of Accounting

The Fund uses the accrual basis of accounting and is accounted for as a proprietary fund. Accordingly, revenues are recognized when earned and expenses are recorded when the related liability is incurred, regardless of the timing of cash flows. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and short-term certificates of deposit and governmental securities.

Investments

Investments are stated at fair value which is based on quoted market price.

Receivables

Receivables consist of all revenues earned at year-end and not yet received. The Borough monitors outstanding accounts receivable and considers accounts receivable at year end to be fully collectible, therefore, no allowance for uncollectible amounts was recorded.

Restricted Assets

Restricted assets include cash and investments of the proprietary fund that are legally restricted as to their use. There are currently no assets restricted by any party.

Proprietary Fund Net Position

Proprietary fund Net Position is divided into three components:

- Invested in capital assets, net of related debt - consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
- Restricted Net Position - consist of Net Position that are restricted by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- Unrestricted - all other Net Position amounts are reported in this category.

**BOROUGH OF MYERSTOWN
WASTE WATER TREATMENT REVENUE ACCOUNT
FINANCIAL STATEMENTS
December 31, 2019**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Restricted Resources

When an expense is incurred that can be paid using either restricted or unrestricted resources (Net Position), the Borough's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

Interfund Activity

Interfund activity is reported as reimbursements or transfers. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between funds within the waste water account are netted. Interfund balances are present when there is a time lag in the reimbursement and/or transfer.

Capital Assets

Capital assets are carried at cost. A capitalization threshold of \$500 is used to report capital assets. Contributed property is recorded at the estimated market value at the date of contribution. The cost of maintenance and repairs is charged against income as incurred, whereas significant renewals and betterments are capitalized and deduction is made for retirements resulting from renewals or betterments.

Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of assets is as follows:

Sewer System	39 years
Buildings	50 years
Equipment	3-15 years
Vehicles	5 years

Compensated Absences

The Borough's employee policy allows employees to carry over up to 40 hours of paid time off with the option to be paid for any unused time, no later than February 15th of the following year. Accumulated compensated absences are reported as accrued paid time off in the financial statements.

Risk Management

The Borough is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, and errors and omissions for which it carries commercial insurance.

Operating Revenues and Expenses

Operating revenues and expenses are those that result from providing services and producing and delivering goods and/or services. It also includes all revenues and expenses not related to capital and related financing, non-capital financing, or inventory activities. Amounts are classified as shared or not by contract between participating municipalities for the treatment of wastewater as disclosed in Note 2.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Event Review

The Borough has evaluated subsequent events through April 2, 2020, the date the financial statements were available to be issued.

NOTE 2 – INTER-MUNICIPAL AGREEMENTS

The Borough has entered into two agreements with other local municipalities, one with the Township of Millcreek, the Borough of Richland, and the Richland-Millcreek Joint Sewer Authority and the other with Jackson Township and the Jackson Township Authority. The purpose of these agreements is to define how the municipalities will share the cost of operating the wastewater treatment facility and share the costs of future expansion.

NOTE 3 - CASH AND CASH EQUIVALENTS

Custodial Risk

The risk for deposits is that in the event of a bank failure, the government's deposits may not be returned to it. The Borough is authorized by statute to invest in government securities and insured accounts or their equivalents. The Borough deposits cash in a local financial institution. At December 31, 2019 and 2018, respectively, the Waste Water Treatment Fund's carrying amount of bank deposits was \$1,262,604 and \$1,004,578 and the bank balance was \$1,275,156 and \$1,022,023. The bank balance up to \$250,000 is covered by federal depository insurance. The depository pledges assets held by the depository's agent not in the government's name to secure deposits in excess of \$250,000 in accordance with Act 72.

Cash equivalents of the Fund consist of funds deposited in the Pennsylvania Local Government Investment Trust (PLGIT). These funds are invested in federal securities and rated AAAM by Standard & Poor's. Balances at December 31, 2019 and 2018 were \$334,429 and \$564,096. The cash equivalents are not categorized by level of credit risk as they are pooled funds and securities are not used as evidence of investment. Market values of these instruments are at cost.

Certificates of Deposit are purchased through a broker from various bank depositories with a maximum value of \$250,000 at each bank imposed by the Borough. Total Certificates of Deposit held through the broker were \$1,328,775 and 1,967,303 at December 31, 2019 and 2018. Cash and money market funds of \$16,890 and \$508,105 at December 31, 2019 and 2018 are covered up to \$500,000 by the securities investor protection corporation through the broker.

The Borough places no limit on the amount of deposits in any one issuer other than the investment limit imposed on the broker.

NOTE 4 - INVESTMENTS

The Pennsylvania Borough Code provides for the deposit of governmental funds into certain authorized investment types including U.S. Treasury bills, U.S. Treasury notes, other short term U.S. and Pennsylvania government obligations or their agencies or instrumentalities and insured or collateralized time deposits and certificates of deposits.

The following investments were held by the Waste Water funds:

	<u>\$ 2,595,918</u>	<u>\$1,787,820</u>

The fair value measurements listed in the table above are based on Level 1 inputs per GASB Statement 72, which are defined as quoted prices in active markets for identical assets or liabilities that a government can access at the measurement date.

The Borough's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.
